Our Philosophy

TLC Preschool has been established to bridge home to school. TLC works to provide a learning environment where children feel valued and accepted. Children will learn to know they are unique creations of God. They will become more familiar with Jesus as our Savior and live in a relationship of love and for-

giveness. We are here to assist parents in their task of parenting and children with their learning development. We use developmentally appropriate practices to guide children, which exposes them to a wide variety of learning opportunities. It is Trinity Lutheran's goal to serve God by providing quality early childhood education in a faith-based learning environment.

Train up a child in the way he should go, and when he is old, he will not depart from it.
